Hi Lisa,

Another I missed. Please add him to the information distribution for today's call if he isn't already on the list. Libby

Subject: Animas River Test results

Hello Ms. Faulk my name is Gabriel I am with the NBC Network News in the LA bureau. Richard Mylott with the EPA suggested that I reach out to you to ask if I could get and update on the water testing for the Animas River and the mine wastewater that has entered the river. Would it be possible for you to help us understand the concentrations of metals and chemicals in the water? And we are very curious to learn what kind of impact this will be having on the region's ecology? Thank you.
